

An aerial photograph of a terraced agricultural field, showing rows of crops in shades of green and brown. The word "Triennes" is written in a white, elegant cursive font across the center of the image.

Triennes

1990 Purchase of
Logis de Nans,
renamed Triennes

6 Certification
in Organic Agriculture 2011

Cuvées produced per year:
1 rosé, 2 whites, 3 reds from
the Mediterranean IGP

3 Founding associates of Triennes:
Jacques Seysses (Domaine Dujac)
Aubert de Villaine (Romanée-Conti)
Michel Macaux

46 Hectares with full southern
exposition facing the Massif de la
Sainte Baume and sustained by Mont
Aurélien, 30 kilometers from the
Mediterranean

14 Winery
employees

2018 Completion of a new
production building

40 Countries where
our wine is sold 450
meters. The highest point of
the domaine. Cool evenings
allow for a long vegetal cycle
for the vines.

Since its creation, the pioneering owners remain involved in the constant and dynamic evolution of Triennes. From research in new technologies to building new infrastructures, each project is designed to better our production and reduce its impact on the environment.

Discover
our products :

A Domaine of a humble size and international reach.

Our team works with a passion for farming and vinification, and the development and sales of our wines. We are proud of our international scope as our wines are exported throughout five continents.

Organic agriculture with respect for biodiversity

We bring a special attention to our vineyards and farming practices. This is especially evident in our work with organic agriculture since 2011. In a more global way, we hope to preserve, reintegrate, and develop the biodiversity within the domaine. Our projects have included the creation of a pond, keeping honeybees and the planting of 800 trees and shrubs on the property.

Vinification in Connection with our Terroir

Our vinification practices of precise and moderate interventions allow for the expression of our terroir and the respective grape varieties. Our wines are not put into new oak and rather see a combination of old barrels and foudres.

An excellent match of exceptional quality and price

We make the kinds of wines we love to drink. In our whites you will find fruit and aroma (Viognier) balanced by freshness and volume (Les Auréliens). In our reds, you will find elegance and structure in harmony with fruit and character. Our rosé embodies Mediterranean authenticity: a joy to drink, lively and gourmand.
